# 1. Increase Electricity Meter

In case the owner builds an additional room or place that needs a new electricity meter, he can send a request to increase an electricity meter by clicking on "Increase Electricity Meter".

The following window opens guiding you step by step on how to initiate the request and insert the appropriate data:

# 1.1. Old License

This tab allows you defining the old obtained licenses as well as inserting all needed details:

New ElectricityMeter

1. Old license > 2. Property Data > 3. Applicant Data > 4. Complementary Data > 5. Owner Data > 6. Electricity Form > 7. Attachments

Old license

Condition: Completion Certificate

Completion Permit Number: 455555555

Municipality: AL Doha Municipality

Electricity Meter Number: 788004555

New ElectricityMeter

1. Old license > 2. Property Data > 3. Applicant Data > 4. Complementary Data > 5. Owner Data > 6. Electricity Form > 7. Attachments

Old license

Condition: Missing Completion Certificate

Electricity Meter Number: 788004555

Back Next

The screenshot shows a web application window titled "New ElectricityMeter". At the top, there is a navigation bar with seven steps: 1. Old license (active), 2. Property Data, 3. Applicant Data, 4. Complementary Data, 5. Owner Data, 6. Electricity Form, and 7. Attachments. Below the navigation bar, the "Old license" section contains three fields: "Condition" (a dropdown menu with "Building Permit" selected), "Building Permit Number" (a text input field containing "780008888"), and "Municipality" (a dropdown menu with "AL Doha Municipality" selected). At the bottom of the form, there are "Back" and "Next" navigation buttons.

- **Condition:** select the appropriate condition from the dropdown list. According to your selection, some fields can appear or disappear. The dropdown list includes three different conditions (Building Permit, Completion Certificate and Missing Completion Certificate).
  - Upon selecting "Building Permit", the "Building Permit number" and "Municipality" fields will appear. In this case, the owner has already received a building permit and then figured out he needs to increase electricity meter, so he sent a request to this end.
  - Upon selecting "Completion Certificate", the "Building Permit number", "Municipality" and "Electricity Permit Number" fields will appear. In this case, the building is old and a new room is added which needs increasing the electricity meter.
  - Upon selecting "Missing Completion Certificate", the "Electricity Permit Number" field will appear. In this case, the building is old and not registered in the system.

After entering the required information click on "Next" to move to the next tab.

## 1.2. Property Data

**New ElectricityMeter**

1. Old license > **2. Property Data** > 3. Applicant Data > 4. Complementary Data > 5. Owner Data > 6. Electricity Form > 7. Attachments

To go back to the previous interface click on ; to go to the next interface click on

, provided that all the required fields are filled.

## 1.6. Electricity Form

This tab allows adding the information that should be sent to KAHRAMAA:

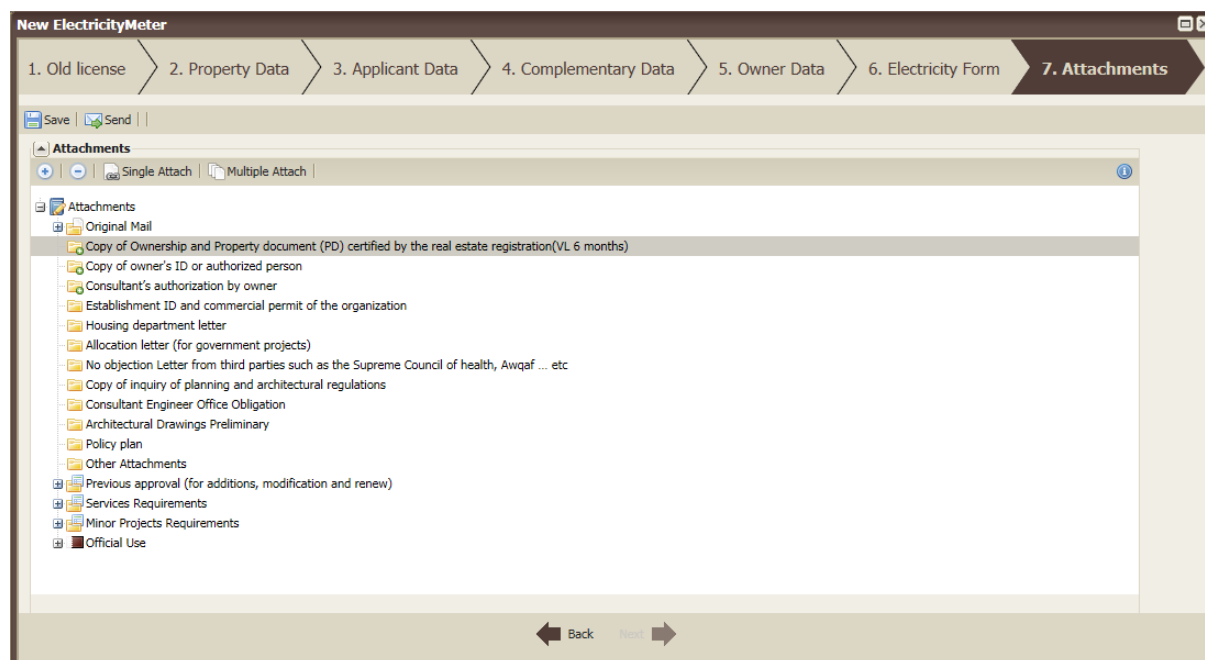

The screenshot shows a web application window titled "New ElectricityMeter". At the top, there is a navigation bar with seven steps: 1. Old license, 2. Property Data, 3. Applicant Data, 4. Complementary Data, 5. Owner Data, 6. Electricity Form (highlighted), and 7. Attachments. Below the navigation bar, there is a "Save" button and a "Cancel" button. The main content area is titled "Kahramaa Data" and contains three input fields: "Number of Electricity Meters" (a text box with a red border), "Number of Water Meters" (a text box with a red border), and "QID/CID" (a dropdown menu). At the bottom of the form, there are "Back" and "Next" navigation buttons.

Fill in the following fields:

- Number of Electricity Meters
- Number of Water Meters
- QID/ CID: to be selected from the dropdown list.

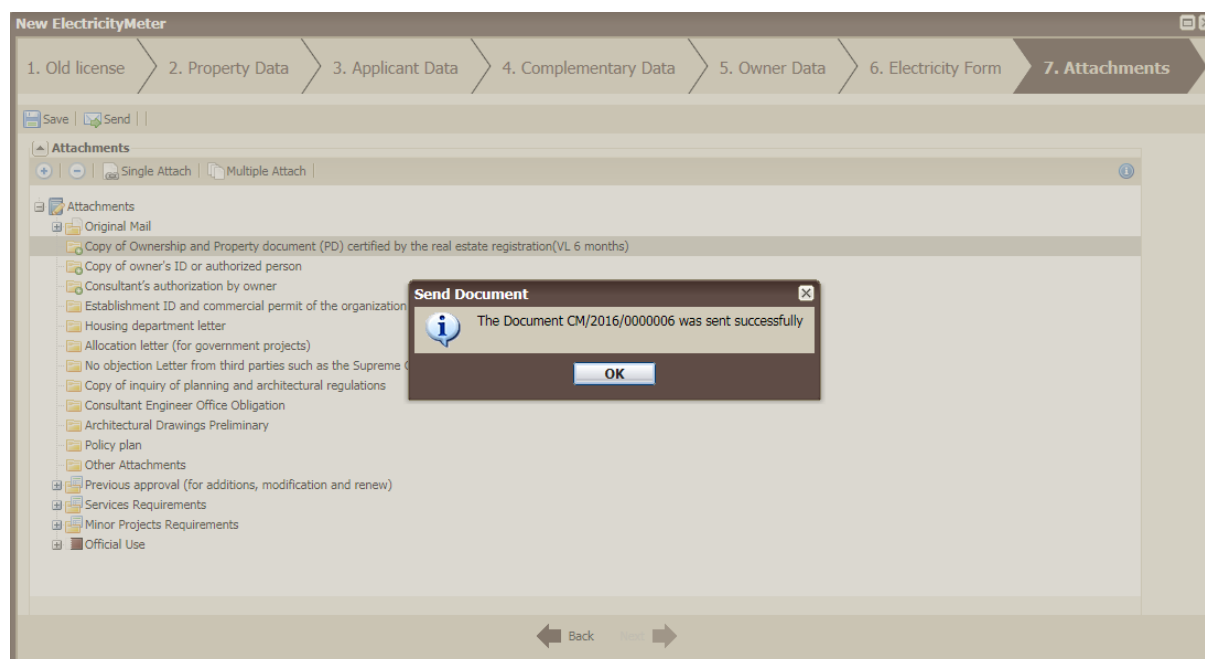

Please note that it is mandatory to fill at least one of "Number of Electricity Meters" and "Number of Water Meters" fields.

## 1.7. Attachments

Select the appropriate folder and then click on “Single Attach” or “Multiple Attach” buttons in order to upload the needed documents.

After attaching the document(s), the “Delete” button will appear allowing the user to delete it if necessary.

After attaching all needed documents, click on “Send”, the request will be sent to the appropriate municipality (according to the entered PIN Number), and will be studied by the municipality coordinator.

The coordinator can choose to take one of the following steps:

- Reject, therefore the request will be stopped.
- Return the request to the consultant so he performs the needed modifications and then send it back to the coordinator.
- Send it to a defined engineer.

The engineer receiving the request can choose to take one of the following steps:

- Return the request to the coordinator because he is not the concerned engineer.
- Return it to the consultant due to some missing maps.
- Accept or reject the request that will be sent to the section head.

When the section Head receives the request, he can:

- Stop it if it was already rejected by the engineer.
- If the request was approved by the engineer, the owner will be informed that his request is accepted and he can submit it to the Electricity Corporation.
